Product-focused Software Engineer with 4+ years of experience building scalable, accessible, and high-performance web applications. Proficient in designing intuitive UI flows and reusable component architectures using React.js, Next.js, TypeScript, and modern state management. Strong backend foundation using Node.js and Express.js to build robust REST and GraphQL APIs. Strong focus on web performance, core browser concepts, and Test-Driven Development (TDD) to deliver seamless, user-centric experiences in Agile environments. Experienced with micro-frontends and Generative AI workflows to build scalable and intelligent applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR/SSG), JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, Context API, React Query, Material UI, Formik

Backend: Node.js, Express.js, MongoDB, JWT Authentication, WebSockets, API Development

Architecture: Micro Frontends, Webpack Module Federation, Monorepo Architecture, Modular Architecture

AI/LLM: LangChain, LangGraph, Agentic AI, Prompt Engineering, GitHub Copilot, Claude

APIs: REST APIs, GraphQL

Performance: Lazy Loading, Code Splitting, Caching (HTTP/CDN), Performance Optimization

Testing: Jest, React Testing Library, Test-Driven Development (TDD)

Cloud & DevOps: AWS (S3, CloudFront, Amplify), Docker, Git, GitHub, CI/CD Pipelines

Methodologies: Agile, Scrum

WORK EXPERIENCE

OSV Solutions Pvt. Ltd., Hyderabad

Software Engineer | Jul 2022 - Present

- Developed and maintained scalable React.js, Next.js, and Node.js applications for enterprise banking platforms serving thousands of business users.
- Led the migration of a large-scale React.js application to Next.js, improving application performance, maintainability, and developer experience through modern routing and rendering capabilities.
- Designed and implemented reusable, responsive UI components and micro-frontend architecture using Webpack Module Federation, enabling independent deployments across teams and improving application scalability.
- Built and integrated RESTful and GraphQL APIs using Node.js and Express.js, contributing to backend services, business logic implementation, and seamless frontend-backend communication.
- Delivered critical banking solutions including B2B Payments, Open Banking, Expense Management, Forex, KYC, E-Statements, and Letters of Guarantee for leading financial institutions.
- Developed AI-powered assistants using LangChain and LangGraph, integrating LLM-driven workflows with backend services to retrieve transaction details, account statements, payroll information, and payment statuses through natural language interactions.
- Collaborated with product managers, designers, and backend engineers to define API contracts, improve user experience, and deliver business-critical features in Agile environments.
- Conducted code reviews, enforced engineering best practices, and mentored team members to improve code quality and maintainability.

Our Works 64 Pvt. Ltd., Punjab

Frontend Intern | Dec 2021 - Mar 2022

- Developed responsive web applications using React, TypeScript, HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to deliver user-facing features and participate in project planning activities.
- Contributed to performance optimization and code quality improvements through code reviews and best practices.

Incredible Visibility Solutions, Kerala

Technical Intern | Aug 2021 - Nov 2021

- Developed responsive UI components using React and TypeScript while ensuring alignment with design specifications.
- Collaborated with senior engineers and designers to deliver user-centric features and improve application usability.
- Gained hands-on experience with Git, debugging tools, and modern frontend development workflows.

EDUCATION

Bachelor of Technology(B.Tech) in Information Technology | 2022

Narula Institute of Technology, Kolkata | CGPA: 8.72/10
